PURDUE'S VIEW OF THURSDAY'S GAME IS OF AN AZURE TINT.

Salmon Badly Battered-West Point and Naval Academy to Battle at

Philadelphia To-Day.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Nov. 28.-Purdue's declared guilty by Commissioner wild joy at the close of yesterday's contest with Notre Dame, when Miller's unexpected touchdown just saved his team Chief Croker was found guilty on the from a bitter defeat and tied the game, soon ran its course, and in its place to-day is a general feeling of deep disappointment on Purdue's failure to gain the championship of the State. Never before did victory seem so certain and to see the hopes dashed to the ground has cast a gloom over the school. Overconfidence in the first half, fumbling in the second and surprise at coming an officer and a gentleman and Notre Dame's strength in both halves were the things that lost the game for Purdue. The score, 6 to 6, does not show the relative strength of the teams, for the total distance which Purdue advanced

> the ball was more than double that of Notre Dame retains the championship of Indiana by Purdue's failure to wrest it from the visitors, but by comparative scores Purdue should be awarded first place. Notre Dame defeated Indiana 11 to 5, Purdue beat the Bloomington team 39 to 0 and the only victories Notre Dame has won this season have been those over Indiana University and De Pauw, while Purdue has beaten Northwestern and Case. The proverbial Notre Dame luck was apparent in yesterday's game. Many times the slip of a Purdue man's foot gave the visitors the ball and thrice Purdue was within striking distance of the Notre Dame line, only to lose the ball by unfortunate fumbles. On the other hand, Notre Dame was never dangerously near to Purdue's goal after scoring once, and even the vaunted Salmon failed to make any material gain after his first succession of assaults that ended in a touchdown. Captain Salmon was badly battered up and was unable to leave his bed in the Lahr Hotel this morning. When he did appear he limped painfully along with a cane and showed signs of physical suffering. The other members of the team were not hurt to any extent and this afternoon

Earlham Pleased with the Record.

Special to the Indianapolis Journal. RICHMOND, Ind., Nov. 28.-Earlham College students are jubilant over the victory of the football team over Rose Polytechnic, Thanksgiving day. The record for the season shows that the Quakers won four, lost four and tied one. They scored 76 points and were scored against 70 points. Considering the fact that the team was crippled at several times during the season Mexican war, and had scouted with Kit and was without a coach until the final games, the achievement is entirely satisfactory. At a meeting to-day it was decided that Stanley shall captain the team next season. He played half back the past season, and is a cool-headed and conscientious player.

TERRE HAUTE, Ind., Nov. 28.-Captain Strecker, of the Terre Haute High School football team, says the team wants and believes it is entitled to the State championship of high school teams. The Marion team, which has not lost a game this season, will be challenged formally for the championship. Terre Haute has not been defeated this year in Indiana, the only game lost being to the Eastern Illinois Normal, at Charleston. The team defeated the Indiana State Normal and is unusually heavy for a high school eleven. The members outweigh the husky men of the In-

The navy team, which is in charge of Captain Davis, also practiced on Franklin Field this afternoon. The players were put through signal drill and practiced several new formations with which they hope to surprise the middles. The West Point cadets are full of confidence, and hope to win easily. The Terre Haute police authorities will ask for the suspension of the sentence of John Harvey, committed to the Reformatory with Nick Weinbold for stealing trunks from the depot baggage rooms in this city and Terre Haute, on the ground that, through his voluntary confession, the property was recovered. FORMATION OF A NEW TROTTING ASSOCIATION CONSIDERED.

Sales and Running Races.

NEW YORK, Nov. 28.-Representatives of the Grand Circuit and affiliated race tracks met at the Hoffman House to-day. pursuant to a call issued by H. M. Hanna, president of the Cleveland Driving Park Company, to consider the advisability of forming a new trotting association. Mr. Hanna was elected temporary chairman, but it was decided not to form a permanent organization at this time. Instead, a committee was appointed whose duty it will be to visit all the leading trotting tracks of the country, get suggestions from the various owners, consider all the rules governing trotting races, and to make a report to the body by whom it was appointed. The committee was requested to make a report, if possible, at the meeting of the Grand Circuit stewards, which convenes in Boston, Jan. 28. Even if the committee is not ready to make a full report at that time, the members will be called together by the chairman for the purpose of receiving such suggestions as may be made by the stewards. The committee will give particular attention to the plan of appointing stewards who will visit all the tracks and decide on various questions at the time they arise, instead of waiting until they can come up before the meetings of the parent bodies, which have sessions once

OMAHA, Neb., Nov. 28 .- Col. John S. Mosby, special land agent for the government, who has been called here to testify before the federal grand jury now in session, says: "There will be bloodshed out in Nebraska over that fence matter before it is done with, but I propose to have the fences torn down, if I have to send a cavalry force there to do it. "President Roosevelt," continued Colonel Mosby, "has assured me that fences would be removed. He said, 'This thing must stop or there will be bloodshed over it.' A Sick Friend, Tell Me His Name. Let Me Help Him.

Just write a postal card-only the cost of a penny. All I ask is the name of a friend who needs help. Tell me the book to send.

Then I will do this:—I will mail the sick one an order-good at any drug store-for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

Don't think that too fair to be possible, for I do just as I say. I do It to convince those who don't know me, and so that everyone who needs help will accept it. I have learned that the cured ones are fair. I have furnished my

Restorative to hundreds of thousands on just those terms, and 39 out of

each 40 have paid gladly, because they were cured. I have willingly paid for the rest. And I spent a lifetime in perfecting the remedy before I ever offered it to anyone. At thousands of bedsides, in hospitals and homes, I have

watched it cure the most difficult cases that physicians ever meet. I learned that it does not fail, save where some cause-like cancermakes a cure impossible. My success comes from strengthening the inside nerves. My Restorative brings back that nerve power which alone operates every vital organ of the body. Common treatments merely doctor the organs, and

the results at best are but temporary. My remedy restores the nerve power that makes these organs act. No other treatment does that, and there is positively no other way to make weak vital organs well. My book will explain this. It tells about the only remedy so sure that any man dare offer it on such a plan as mine. Won't you tell mea

Michael Shields Did Not Live to Be

Thirty Years Old. OMAHA, Neb., Nov. 28 .- Michael Shields, chief electrician at Armour's packing plant at South Omaha, was found dead to-day, his hand grasping a bunch of live wires. He had been lifeless evidently for hours. The insulation had been cut from the wires at the places where they were grasped by the dead man. On the ground beside him lay an open pocket knife, on the blade of which were particles of bright copper, indicating that it had recently been used in scraping the wire. Shields's father died of consumption several years ago, and on his deathbed he predicted that Michael

The committee composed of the Earl of Mayo, Lord Dunraven and others interested in the Irish agrarian question, which proposed to call a conference of Irish landords and tenants with a view to the sale of the land to the latter, met in Dublin yesterday and sent an invitation to the convention of Irish landlords to join the movement. The convention explicitly declined i

the invitation, principally because it will not meet the National members of Parliament, and as it does not regard the recent poll of the Irish landlords, which resulted in a vote in favor of holding the conference, as being sufficiently representative of the views of the Irish landlords. CORRUPTION IN CHINA.

Officials Said to Be Again Robbing the Government of Taxes.

LONDON, Nov. 29.-The Times publishes dispatch from its Peking correspondent dealing with the difficulties which have arisen in consequence of the continued decline in silver. The correspondent says there is no reason to fear that China will fail to meet her engagements, but a discouraging feature in the situation is that no effective attempt has yet been made to inbeen appointed to succeed Lord Acton as troduce any kind of fiscal reform anywhere in the empire, while if anything corruption is on the increase. For instance, the Peking Octroi under the purer administration of Prince Su yielded the government 700,000 taels net revenue, against 150, 000 taels previously obtained. Prince Su was transferred and condemned for exposing the true earnings of the Octrol, and Prince Ching, his successor, returned to the old order of things, and peculation is now worse than ever. At the present rate of silver, adds the correspondent, China will require to provide an additional 3,500,-900 taels for the next installment of the
